

Church of Nowhere

Technique

- Tempo : 70
- Patch GT-10 : "ChurchofNowhere" (User settings, 1-2)

Paroles

COUPLET 1

Welcome to the church of nowhere,
Come on meet the god of no one.
Walls have no ears in the church of nowhere,
Whisper secrets.
There no one here to judge what you are, what you've done.

Welcome to the church of nowhere,
You're not lost there.
All roads are hard to take, take them all.
In the church of nowhere, no closure, no keys.
Beliefs can't control your mind freed.

REFRAIN

Stop, stop praying,
Live what you want to live.
Stop, stop asking,
Do what you feel to do.

Stop praying,
Live what you want to live.
Stop asking,
Feel what you want to feel.

COUPLET 2

You've entered the church of nowhere
Find strength and faith, pray the deaf God himself
Deaf to your torment, resolve it by yourself

You start to grow up, flourished and strong
Because you know now to whom you belong
You know now God, it's you ...
You everywhere, in the church of nowhere.

REFRAIN

Stop, stop praying
Live what you want to live.

Stop, stop asking
Do what you feel to do.

Stop praying
Live what you want to live.
Stop asking
Feel what you want to feel.

SOLO

Stop, stop praying
Live what you want to live.
Stop, stop asking
Feel what you want to feel.

Stop praying
Live what you want to live.
Stop asking
Feel what you want to feel.

PONT

You're everywhere, in the church of nowhere.
You're everywhere, in the church of nowhere.

REFRAIN/OUTRO

Goodbye from the church of nowhere ...
Goodbye from the church of nowhere ...
Goodbye from the church of nowhere ...

Stop, stop praying
Live what you want to live.
Stop, stop asking
Feel what you want to feel.

Stop, stop praying
Live what you want to live.
Stop, stop asking
Feel what you want to feel.
